Student Retired Executive Magistrate (Civil Servant)

Department of Business Management, University of Calcutta, India.

Abstract: Beyond bewilders. Beyond imagination is a concept. Beyond infinity is a greater concept. Beyond death is the greatest concept. Also beyond concept is also a concept.

Keywords: Beyond, further, too great, too bad, extreme, addition, besides, out of reach, surpass, unknown

INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform, rather it reveals. So it bears no reference. The best creative writing is critical, and the best critical writing is creative. This article is an outcome of thinking about creative writing meant for a general readership. As such, I have adopted a free style methodology so that everyone can enjoy the pleasure of reading. As you might know, Francis Bacon (1561-1626), the immortal essayist, wrote many essays namely 'Of Love', 'Of Friendship', 'Of Ambition', 'Of Studies', and so on. The multiple-minded genius correctly pointed out that all the words of the dictionary can be used as themes for essays. But little has been done since his death to continue or finish his monumental task. Bacon's unique individual style of presentation ignited my imagination and encouraged me to write creative essays as a method of relieving a wide range of emotions through catharsis.

ARTICLE

Beyond is further away in the distance than something. For example: In the distance, beyond the river, was a small town.

It is happening or continuing after a specified time or event. For example: Many people work well beyond the age of sixty-five.

It is to be more than or not limited to something. For example: The appeal of this device goes beyond convenience.

It is too great or bad for anyone to believe, repair, recognize, etc. For example: His thoughtlessness is beyond belief.

It is extremely excited, serious, angry, etc. For example: She says she is beyond excited to see her son for the first time in more than three tears.

It is in addition. It means besides e.g., provides the essentials but nothing beyond.

It is out of the reach or sphere of e.g., a task beyond his strength.

It is in a degree or amount surpassing e.g., beautiful beyond measure.

It is out of the comprehension of. For example: His reasoning is beyond me.

It is the unknown, especially in references to life after death e.g., messages from the beyond.

Beyond implies impossible. An abnormal person always thinks beyond his capacity. A normal person seldom thinks so.

There are two types of persons. The first category plans within his limit. He is a common man. He seldom goes beyond his limit. He always remembers the proverb, "Cut your coat according to your cloth". He is a man of reality. He is not romantic. He is timid in nature. He knows his designation. He knows better his limitation. He never crosses his limit. He never comes down. He never breaks his crown as in the rhymes.

The second category is adventurous in nature. He likes to take the risk. He interprets, "No risk, no gain" as "high risk high gain". He argues that life is only for once so one should live like a prince. Someone may go and should go as he likes. He may examine the warmth of beyond.

Man faces beyond both in real and virtual world. Beyond capacity, beyond reach, beyond knowledge, beyond imagination, etc. always appear to us in its various forms and features having different degrees and dimensions as well.

Beyond is not normal. It offers both pleasure and pain. It implies dream. Dream is a driving force. Dream does not die even after death of the dreamer. Dream offers pleasure when it materializes the aim. It causes pain when objective remains unfulfilled. An ambitious person tries till he realizes his objectives. He is a true careerist. A careerist is always selfish. He wants to reach his target by hook or by crook i.e., by any means fair or foul.

Gossip refreshes mind. Man becomes careless while gossips. Emotion escorts him to the romantic world. He forgets his mundane existence. He trots in the untraded galaxy. It continues beyond time. Even a time conscious person wastes time to serve and satisfy his emotion. Lovers gossip beyond allotted time. Waiting for the lover for a single moment is perceived and pains as an hourly event and when lover appears then an hour seems to finish in the twinkle of an eye. Thus the lovers experience thereby guess and gauge the theory of relativity while wait and meet each other.

A lover wants to marry a partner being the paragon of beauty i.e., complexion beyond limit. A beautiful person has many followers. Everybody wants to be intimate to come closer. Unhealthy competition is observed. Everybody wants to beat and cheat everybody. As sachet may be easy to marry a beautiful woman but difficult

to hold her for long since easy earning money is not always easy to keep in safe custody.

If a citizen of a country goes beyond the boundary of his own country then he is considered as trespasser. The essence of boundary dispute lies with the concept of disobedience of boundary line. If a foreigner stays beyond visa period then he faces serious trouble caused by illegal immigrants. In case of any overstay or emergency the foreigner should immediately contact the embassy to avoid future complicity.

Beyond stands for higher and greater grade. It may either be good or bad. It is good when it favors and positive in nature. It is bad when it is detrimental and negative in nature.

A timid has no aim. He has no ambition. He is not ambitious at all. He does not dream since he cannot dream. He is afraid to dream beyond a dream. He favors stalemate condition. He is afraid of any kind of change. He does not welcome change for uncertainty, injustice and fear. He knows the saying, no risk no gain. But he does not like to take any kind of risk. He wants not to gain from any kind of risk. To him a bird in hand is better than two in the bush.

An ambitious person thinks for beyond. He is dynamic. He is uncommon. Rule bores him. Consistency is tedious to him. He likes inconsistency. He is dangerous. He likes to face danger. Danger thrills him. Variety is the spice of life. Through variety he wants to enjoy the spicy life. He wants to ride. He wants to be the first jockey of any new horse in the race course.

There are two types of persons. The first category gambles with money. He is a gambler. The second category gambles with life. He is a great gambler. The great men always like to think and do beyond limit. Here lies their uniqueness.

Hard work beyond capacity should not be done for long. It harms health. A fit person does not understand it. An unfit person knows it very well. Yet sometimes man has to do beyond limit for his mere existence. It is a daily drama of marginal jobless workers.

Over work culminates into untimely and ultimate death. This is bitterly true in case of laborers especially in case of daily wage laborers who experience no work no pay policy. They are always afraid of hire and fire policy. Today they are engaged. Tomorrow they may not get any job.

They have no certainty. Uncertainty is their ever companion and never failing friend. This is hard reality in case of unskilled laborers who are large in number. This human resource is a headache to a poor nation.

An emotional person thinks beyond capacity. A fool tries to do anything beyond his capacity and naturally fails successfully. An intelligent person thinks beyond his present capacity. He plans to implement it. He prepares accordingly. He starts the job. If he faces hurdles he modifies the strategy. He tries cautiously. If he realizes that it is not possible to be successful he stops the venture forthwith and comes back thereby saves further loss. In contrast, if he is confirmed to reach the target he proceeds and ultimately becomes successful. In case of failure he gathers experience. He tries repeatedly and reaches the goal. This is the story of an ambitious person regarding the venture of beyond.

Science and technology are developing abruptly. So what is beyond knowledge today it becomes quite normal tomorrow. If something is impossible at present a fool readily remarks its impossibility forever. Here lies the limitation of intellect of a fool.

A fool cannot think beyond present. He is lazy. He cannot shine due to his lackadaisical attitude. To think beyond something courage is required. It is a must. Only a courageous person can think beyond. He can take the risk of beyond. A brave person knows that risk is the spice of life. The brave readily mixes it to render the life more enjoyable.

To a lay person life is tedious. Monotony of identical routine of daily life causes agony. Here lies the importance and application of beyond. Life is not dull. An intelligent person knows the secrets of success and enjoys it through cock-tail. It is the outcome of beyond.

Normal life follows a definite routine in all its phases. If everything is done timely then work beyond time or overtime is not required. It is a difficult task. Always timely is not or may not be

possible. An alert person knows it very well. He compensates deficiency immediately. He keeps noting pending. The learned knows, "A stitch in time saves nine". As such, "Do it now" is his strategy. It is an important tool of any successful person.

Savings is an art. All should save to battle against the bad days of future. A rich person may not save. A poor person saves. Savings is an orientation. The poor suffers from the bitter biting of hunger. Hunger compels the poor to save.

In reality the poor cannot save always due to fewer wages or earning. As such the poor has to work even at old age. No work no pay is their destiny. They have to survive through daily wage earning. In contrast the rich enjoys the warmth of huge savings at old age. They have the old age home beyond their normal home. The poor has nowhere to go. They get no home from cradle to coffin.

Affection is a hindrance of beyond. Mother asks her children not to go beyond known boundary. Here, mother is anxious for the immature souls. But mother should not bind her grown up children to know the unknown thing beyond known boundary. It helps to be confident. Confidence is an asset to build the career.

A child needs help to stand erect. But it needs no help to run. The affectionate mother should know it. The earlier, the better. She should not be unnecessarily anxious for it. Beyond is not always bad. It has positive side too. An optimist always thinks for positive which is a driving force.

CONCLUSION

Beyond bewilders. Beyond imagination is a concept. Beyond infinity is a greater concept. Beyond death is the greatest concept. Also beyond concept is also a concept.
