ABSTRACT: Bed tea is indispensable in cold weathered countries. In hot weather countries it is not a must to protect from cold. Now a person may travel from cold country to a hot country. Now bed tea is not required to protect from cold since the weather of the present country is hot. Yet the person wants bed tea due to inertia of habit or headache. If the habit is not served then it turns into headache.

INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform, rather it reveals. So, it bears no reference. The best creative writing is critical, and the best critical writing is creative. This article is an outcome of thinking about creative writing meant for a general readership. As such, I have adopted a free style methodology so that everyone can enjoy the pleasure of reading. As you might know, Francis Bacon (1561-1626), the immortal essayist, wrote many essays namely 'Of Love', 'Of Friendship', 'Of Ambition', 'Of Studies', and so on. The multiple-minded genius correctly pointed out that all the words of the dictionary can be used as themes for essays. But little has been done since his death to continue or finish his monumental task. Bacon's unique individual style of presentation ignited my imagination and encouraged me to write creative essays as a method of relieving a wide range of emotions through catharsis.

ARTICLE

Indispensable means absolutely necessary. For example: He made himself indispensable to the church.

It is essential e.g. an indispensable member of the staff.

It is not subject to being set aside or neglected e.g. an indispensable obligation.

If someone becomes indispensable it is his credit. But it is the discredit of the authority or the persons who depend upon him. So, a judicious person always keeps ready for standby or substitute. Many persons depend upon him. He becomes unparallel. He is a blessed soul. He achieves divine grace. Water is indispensable. Without water man and aquatic animals cannot exist. It is a question of life and death.

Habit is the second nature. Foot habit is very important. The tongue and digestive system are

tuned accordingly. Now concerned food is indispensable to any person. Here brand name influences the person. The person can change food but not brand. Again, someone can change brand not food. Both the persons are diagonally opposite in their taste and temperament.

To the former brand is inevitable not food. To him content is not the factor, rather container i.e., brand is indispensable. He is so loyal to the brand. He is like a blind supporter. Such a consumer is an asset of the concerned company. In case of the later one container is not the factor rather content. He is interested with the composition not the composer. It is like generic formula of medicine.

Bed tea is indispensable in cold weathered countries. In hot weather countries it is not a must to protect from cold. Now a person may travel from cold country to a hot country. Now bed tea is not required to protect from cold since the weather of the present country is hot. Yet the person wants bed tea due to inertia of habit or headache. If the habit is not served then it turns into headache.

He who considers himself as indispensable is a fool. He who considers himself not as indispensable is wise. He who gets recognition from all as indispensable is indispensable.

One may miss to self-estimate. He may over-estimate or under-estimate due to superiority complex and inferiority complex respectively. But public recognize someone correctly. According to public opinion weight-age of someone is determined. In private decision there may be partiality or nepotism. But in case of public decision, it is free from any allegation or so-called influence. Here not the personal choice rather voice of public is final.

Parents are indispensable to the children. Old persons depend on the issues. If issues do not look after them then they will not be looked after by their issues as is seen in some societies. Some nations care for their senior citizens since the children live separately after attaining adulthood. Also, the issues are engaged in works in another city or in a foreign country. So, they cannot look after their old parents in spite of their willingness. Here the rules of conservative society do not hold good.

An indispensable person is an expert. Technologies and knowledge are changing abruptly. As such today's expert becomes merely a novice if not updated with the latest knowledge or technologies.

He simply becomes obsolete. Then none cares for him.

One should not be proud if he becomes indispensable because pride goes before a fall.

If love is indispensable then the lover has no choice or bias. Any person or object suffices to serve and satisfy his emotion.

Generally, lover is indispensable. Then love not, concerned lover is concerned. If the lover betrays or dies or becomes compelled not to love further then a genuine lover does not love another new lover. It is a matter of emotion and involvement as well. But the fake lover forgets the previous lover and be involved with another lover within short period of time. It seems to him not love, rather sex is indispensable. He changes partners regularly. None is indispensable to him. He needs body. New body is indispensable to him.

Food habit is very important. Digestive system of someone can digest the known food. If the person eats beyond regular or unknown food then the stomach may not digest the new food. The person suffers from indigestion and stomach disorder as well. As such a health-conscious person seldom takes food beyond his routine dish. In fact, routine food is inevitable for physical fitness.

To a vegetarian vegetable is indispensable. A non-vegetarian considers a vegetarian as weak. He laughs at him. A vegetarian hates to take fish and meat. He hates the non-vegetarian person more than fish and meat.

A vegetarian may fall in love with a non-vegetarian. Similarly, a non-vegetarian may propose to a vegetarian soul. Every religion has its prescribed food chart. The lovers seldom care for those restrictions. They are interested only for love. To them orthodoxy is simply a garbage only. So, they hate any kind of obstruction.

A lover may ask his/her partner to change food habit. A true lover may change his food habit for the sake of love coupled with lover as well. Generally, a vegetarian cannot take fish or meat easily. Smell of fish and meat cause vomiting tendency and sometimes he vomits. He may take longer period to adopt it. Sometimes a non-vegetarian cannot take full vegetable meal. In both the cases the lovers may ask not to change their food habit.

To an orthodox own religion is indispensable. He hates other religions as inferior in comparison with

his own religion. He loves the persons of his own community and marries a woman of his own religion. He is so biased. He is so self-imprisoned. He suffers from self-created crisis. He avoids all. Also, he is avoided by all.

In reality love between two lovers hailing from two different religions is a sensitive issue and a complex matter as well. Here honor killing or communal riot render the situation more complex. In such inter religion marriage conversion is a solution. Now who will be converted is a million-dollar question. This problem has two solutions. Firstly, none will change his/her religion. After marriage each will pray and practice as per his/her own faith and belief. Secondly, one lover will be converted to another religion. Generally, the decision is made as per situation. In fact, the lovers need each other. They are interested for intimacy not for religion. Protection and expansion of religion is the concern for the so-called self-proclaimed guardian who live for religion, dream for religion and even die for religion.

Love is guided by emotion. Emotion faces reality. Lovers face honor killing. If they don't care honor killing then love between them is indispensable. If they change decision then parent's honor is more than their love. They are guided by motion. Then the partners leave each other. They may marry as

per their family's decision. They may or may not keep touch with each other. If they can conquer physical love then they may love from far. It is a difficult task but it is their genuine love converted from physical love to platonic love.

To an addicted person addiction is indispensable. If the addicted item is changed by a new one beneficial for health and used for pretty good time then the user becomes accustomed to consume the new one. Here one addiction is replaced by another addiction. The former is evil and the latter one is good. Thus, man cannot be free from addiction either good or bad.

CONCLUSION

The proverb goes "too much of anything is bad". As such too much dependence is also bad. Dependence implies indispensable. Too much dependence renders someone defunct. The person cannot stand erect. Due to dependence man forgets to be independent. An independent person knows that dependence is a curse. Too much of good is also bad. As such too much independence is also bad. As such medium or optimum is indispensable for full blooming of life.
